IP Based Oneway Announcement System

- Connect through LAN/WAN.
- One - way announcement to field speakers individually.
- One - way group announcement to field speakers.
- One - way call announcement to field speakers.
- Top management can announce to field staff whenever required.
- Instruction for exit during an emergency.
- Being Internet protocol based, General manager and management can announce from anywhere.
- IP based horn speakers and iP based Box speakers rated for 30Watts RMS.

NOTE:

- With power supply to IP Box speakers & IP horn speakers the sound output is 30 Watts rms.
- If connected with PoE the sound output will be 15W rms.
